

DOLPHIN TECH

TECHNICAL DIVING COMPONENT

- 4kg WEIGHT POUCH (Item no.: JT-WP4)
- 7kg WEIGHT POUCH (Item no.: JT-WP7)

THANK YOU for choosing Dolphin Tech technical diving BCD component. Only materials best suited to diving conditions were used to make this vital piece of equipment and it was designed and made according to the highest standard in diving equipment manufacturing so you can have reliable service from it for years to come.

GENERAL WARNINGS AND CAUTIONS

Please read and thoroughly understand the content of this owner's manual in its entirety. If there is anything not clear on how this product functions, for your safety sake, do not use it and please contact an authorised IST dealer for assistance.

Do not modify this product as it will render the warranty void and it may not function properly and safely.

PRODUCT DESCRIPTION AND ASSEMBLY METHOD

Dolphin Tech technical diving weight pockets are made from 1680 denier ballistic nylon for durability. There are 3 webbing loops on the reverse side and arranged in a way that when the harness webbing is threaded through, the weight pocket will be stable and not flop around. Depending on the model, it is designed to hold up to 4kg (9lb) or 7kg (15lb) of weight each.

Front

Back

Each weight pouch contains an **inner pouch**. It conveniently keeps all solid or soft weights together as a single unit for the ease of loading or removing after a dive through the top zip. The **bottom opening** is held close by a sturdy quick-release buckle and Velcro. Only use this in an emergency when weights need to be jettisoned quickly. To do so, you need to firstly check if there is any one below you so the dropped weight will not injure the others. Squeeze open the quick-release buckle and hold on to the female buckle to use it as a handle. Pull downward to separate the pocket flap, which is being held by velcro.

MAINTENANCE AND STORAGE

- Do not put or drag this BCD component across rough and / or sharp surfaces.
- Do not place any sharp and / or heavy object on any part of this component.
- Do not expose this BCD component to the sun while not diving.
- Immediately after a dive, rinse this component with fresh water as soon as possible. Air dry (in the shade) **completely** before putting your BCD and back plate pouch away.
- Store in a cool, shaded place.

WARRANTY

Any modification to this component will render the warranty void and may irreparably damage it and can lead to unsafe diving.

The warranty of this technical BCD component is valid to the original owner only (with proof of purchase) AND it covers any defects in materials and / or workmanship for the period of 2 years from the date of purchase. Proper maintenance as prescribed in this manual is required to uphold the warranty during the valid coverage. Any wear and tear under normal usage, as well as any commercial / rental usage, are not covered by this warranty. The following action will also void the warranty: any incorrect use or misuse – intentional or unintentional or any modification of this BCD part.

If a problem has developed with this product, please contact your nearest IST authorised dealer or IST distributor for return authorisation. Please properly package this product and send with your proof of purchase and postage prepaid. We reserve the right to service any non-authorised returns.

PURCHASE RECORD

Date of purchase	(dd) / (mm) / (yy)
Dealership & contact information	
	(Dealer's stamp)
Purchaser & contact info:	

1) With the harness unassembled at the waist, thread the webbing through the top (horizontal) slot on the back of the weight pocket.

2) Thread the webbing through the back plate as shown here (back view)

3) Thread the webbing through both vertical loops on the back of the weight pocket.

4) Attach waist D-rings to the waist strap with webbing keepers. Due to the addition of the weight pockets, the position of the D-rings may not be at the widest points of the waist.
